

Tutorial

Pocket add-on for Your choice sweatshirt (Shawl neck and roll neck)

1. Cut the front bodice in half along the fold line, remembering to add a seam allowance. Cut your pocket piece and add your seam allowance as pictured. I recommend using 7mm seam and 20mm hem allowance

2. Fold and press the hem, and sew across with a stretch stitch.

3. Place the pocket on top of the right front piece, with the wrong side of the pocket to the right side of the front piece. Place the left front piece on top, right sides together, sandwiching the pocket piece.

4. Sew the two front pieces and pocket together along the centre seam. Pin the remaining sides of the pocket in place while continuing to assemble per main tutorial instructions.

Now go share your pretty work over at the "MW patterns - sew and tell" facebook group :D

Thanks to Karina Bierbum Hansen who first made this pocket hack!
