

Print settings

1. Here you can choose which pages to print. Use a comma and/or dashes to select the pages you wish to print.

2. ACTUAL SIZE should be ticked. However using CUSTOM SCALE and then changing the size range to 100% will also work.

3. Select LANDSCAPE

Using the AUTO PORTRAIT/LANDSCAPE function will also work, as it auto selects the direction the document.

4. Here you can preview your print.

Only the pages you selected at STEP 1, will be shown here.
